Anytown, State ZIP

Dear USCIS,

I am **Syed Bashir Uddin Ahmed, A# 063633243**. On December 16, 2014 I have changed my address online and it was updated successfully. I have the **confirmation number: COA35014003263** and I had pending case about my Permanent Resident Card replacement. I was keep checking my case status and on July when I checked my case status I saw that my Permanent Resident Card sent to my old address. I tracked the mail and saw my moter-in-law received it. They did not sent my card to me and refusing that, they even received any thing. I filled an erequest to check what happened and why USCIS sent my new card to my old address. I received a letter to update my address one more time which I did online on July 17, 2015. Then I made an appointment with USCIS local office and gave my documentation of change of address AR 11 and explained what happened. Officer checked it and found the mistake by USCIS and asked me to file anothr application but do not need to send any fees with it and write a letter explaining what happened. Officer also emailed one from him.

I am also attaching my AR 11 confirmation document along with this letter which I did online. As per USCIS officer my both AR 11 under my Alien number.

Hope all my documentation will support situation and I will receive my new card.

Thank you.

Sincerely yours,

Syed Bashir Uddin Ahmed
